

WARNING!

Helmets for alpine skiers. For use in non-motorized recreational snow sports (such as skiing, snowboarding, and other alpine sports). No helmet can protect against all possible impacts – death or serious injury may occur. • This helmet should not be used by children while climbing or doing other activities when there is a risk of strangulation/hanging if the child gets trapped with the helmet. • Helmets can be seriously damaged by substances such as petrol, paint, adhesive or cleaning agents. Damage from chemical substances may not be visible. • Clean only with mild soap and water. See manual. • Make no modifications and do not add or remove any components. • For maximum protection, the helmet must fit the rider's head properly. • Put helmet on properly and fasten straps securely under the jaw. See manual for further fitting instructions. • If the helmet shows signs of damage, destroy and replace it. If the helmet receives a severe blow, even if apparently undamaged, destroy and replace it. The helmet may no longer offer sufficient protection.
